

PROVIDING FEEDBACK TO THE COLLEGE

The College is always looking for ways to better prepare our students for their experiential learning opportunities and value your feedback for improvement.

The following are ways to support continued growth and development and provide your input:

- Provide ongoing dialogue with College Placement Representatives
- Ensure completion of the individual student evaluations
- Contact the Manager of the Student Placement Program to provide further feedback e.g.
 - Was the placement successful?
 - Was the student properly prepared for placement?
 - Would you hire this student if there was a job opening?
 - Would you recommend SLC placements to other Placement Agencies?
 - What suggestions for improvement can you recommend?
 - Other comments?
- Provide a testimonial to support future student placements
- Recommend taking a student for placement to other businesses
